

Worawa Aboriginal College Project

Hello all – thought you might like to see some of the latest images of the results of the extension of the Dreaming Trail that the Richmond Rotary supported. This support enabled the extension of the trail around the billabong which enables greater interpretation of the landscape. The children’s memorial situated on the island in the billabong will have a soundscape that will tell the story of life on an Aboriginal Reserve.

Dr Lois Peeler AM
Executive Director

Victorian Senior Australian of the Year 2017

Note. The Dreaming Trail is both a place for the girls to contemplate or meditate and incorporates the memorial to the Aboriginal children of the area. Boarding away from home can be quite traumatic and this Trail forms a vital part of the Worawa community.
